Highlights for this quarter –

Success Story: Remington Burns-Remington enrolled as a dislocated worker in December 2019. He had been employed previously as a fast food cook, painter, and a laborer. Remington came to the CareerLink seeking funding assistance for the CDL-A Course. He completed his enrollment and application at the Clearfield County Career and Technology Center. Remington participated in the January class, graduating on January 29, 2020. When he met with his TDS on January 31st, he had already contacted several trucking companies regarding employment. Remington began working full time as an over the road truck driver for Wel Companies on February 10th. He continues to be employed there, and reports that things are going well. Remington was excited to employment and is participating in follow up. He utilized supportive services for transportation costs, DOT physical and CDL Permit and the ITA was funded through Rapid Response.

Eli Welch Selfridge is an Out of School Youth who met with staff back in March. Eli had a passion for automotive work but had a hard time finding someone to give him a chance. While working with the Career Link Staff they found him the perfect shop close to his home. Eli has only been there for a month but the owner of the shop already stated that they plan to hire Eli on after his Work Experience time is up. Eli loves what he is doing and is a quick learner. Eli stated that coming to the Career Link was the best choice he could make and he is thankful for his time with us.

May 20th, 2020 Pa CareerLink staff attended Equal Opportunity Training. The facilitator was Sandy List from the Office of Equal Opportunity. During this training staff were educated on the proper way to file claims on the behalf of those that feel they have been discriminated against. We also received training on the appropriate documents that are used when filing a report. Updated documents and postings were also shared during the training. Staff also received instruction on how to share information with other Careerlink members. We are very appreciative of the time that Sandy spent with us.
