Highlights for this quarter –

While not all posted thru CL, most of the restaurants and Fast Food establishments including convenience stores are extensively recruiting. The Business Service Team continues to reach out to these employers to offer services. Area School Districts are all recruiting bus drivers. PENNDOT is actively recruiting for seasonal drivers and operator positions across our entire area. Many professional/trade openings are in demand these include, mechanics, electricians, welders, plumbers, maintenance, and machine operators.

Many businesses have not opened to full potential and are still being impacted by COVID.

Several staff members are currently working with **Ardagh Glass and International Waxes**. These companies are taking advantage of assessment services to schedule and administer the TABE test. Other program options as well as TABE remediation are offered to employers. Over 60 customers have been served
