	Shop n Save continues to recruit		
	Kightlinger’s Motors		
	Truck Lite – opened new division at Cdspt site		

Highlights for this quarter –

Staff have continued a high level of service delivery to jobseekers and employers during these difficult times. Staff maintain a safe work environment while providing an equal level of service. Virtual services are still offered to customers when needed and staff continue to assist in UC questions and concerns and referrals to UC staff.

While not all posted thru CL, most of the restaurants and Fast Food establishments including convenience stores are extensively recruiting. The Business Service Team continues to reach out to these employers to offer services. Area School Districts are all recruiting bus drivers. PENNDOT is actively recruiting for seasonal drivers and operator positions across our entire area. Many professional/trade openings are in demand these include, mechanics, electricians, welders, plumbers, maintenance, and machine operators.

Many businesses have not opened to full potential and are still being impacted by COVID.

Success Story

Potter County – Miranda was one of CareerLink’s virtual enrollments that happened during the Covid-19 work-from-home period. Miranda’s mother contacted Mary Jo Stuckey (WIO Title I) to explain that her daughter had been looking for work since graduating high school from the special education program in 2019. They met virtually and enrolled Miranda in the WIOA OSY program. Mary Jo met (virtually) with the manager of the Coudersport Goodwill and was able to place Miranda in a work experience program. Supportive services were helpful in supplementing her travel expenses. The supervisor said Miranda was a very hard worker and completed every task assigned. She worked well with co-workers and was very helpful to customers. Miranda loves her job. After completing her 240-hour WEX program, Goodwill hired her permanently!
