

Attachment 4: Local Workforce Development System Supporting Data

Local area plans have multiple sections requiring various data methodologies needed to support narrative. When documenting data methodologies, plan drafters may reference the data location in the local area plan prompt narrative and move referenced data (e.g., charts, tables, etc.) to this attachment. The *Supporting Data* attachment must be submitted with the local area plan and publicly posted with all other supporting documentation as referenced in the WIOA Regional and Local Area Plan Guide.

Local boards must enter the prerequisite information (i.e. LWDA name, section number with prompt, input data referenced in the plan’s prompt narrative and cite data source) if using this form.

If a local board does not use this form, the LWDB must make note on this attachment that “all data is cited in the local plan narrative.”
